## About Dr Rolfsen

Dr Amy Rolfsen is a naturopathic physician with clinical expertise in preventive anti-aging medicine, helping her patients achieve a natural look with cosmetic injectables.

She is also a medical educator and public speaker in the areas of gut microbiome, GI physiology and botanical medicine.

### Courses, Certifications, & Advanced Training:

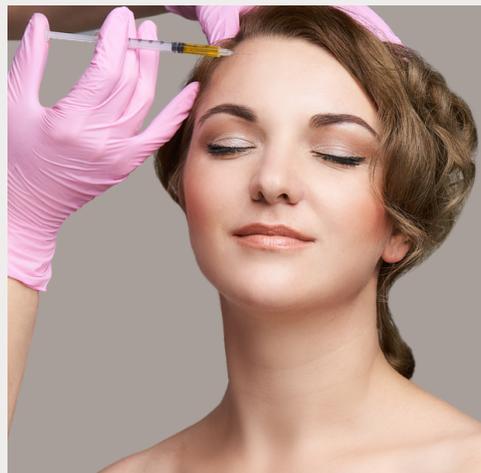

- Doctor of Naturopathic Medicine
- Prescription/Pharmacy Licensure
- Prescriptive Authority in British Columbia/ Pharmacy Licensure
- Aesthetic (Botox ®)

FEEL BETTER • FASTER • NATURALLY

## Therapeutic Botox®

Micro-injections are applied into affected areas, which temporarily block signals from the nerves to other parts of the body. Over-tight muscles that contribute to tension and migraine headaches, and painful jaw clenching, will relax. The procedure is quick and easy and results typically last 3–5 months.

## Cosmetic Injections

Dr Rolfsen enjoys using cosmetic injections to:

- Soften undesired fine lines that may affect your overall facial expression
- Restore your natural youthful features
- Relax certain areas of your face affected by migraines, eye strain, and long-term concentration on your phone or computer

## GI-MAP & DUTCH TESTS\* Educational Consults

Are you looking to expand your knowledge of working with the GI map and DUTCH tests?

Do you want focused guidance to ensure appropriate use, evaluation, and information delivery on these tests? If you answered yes to these questions, get trained by Dr Rolfsen.

\*Disclaimer: for educational purpose only, no treatment plan or prescription are offered.
