About Dr MacIver

"I love what I do. I feel honoured and privileged to hear the stories of my patients, to be a part of their lives, and to help them on their journey. I was drawn to this field through my love of nature, which started with a course in herbal medicine and wild crafting. I wanted to learn more about health and the body, which led me to naturopathic medicine. As a naturopathic doctor, I can provide natural and effective options for healthcare, and help people feel great!"

For the past 5 years, Dr Melanie MacIver has been running a successful practice as at Euphoria, giving hundreds of patients access to her unique knowledge and over 17 years of experience in Naturopathic Medicine. She has a special interest in women's health, and is passionate about helping women live great lives.

Courses, Certifications, & Advanced Training:
- Doctor of Naturopathic Medicine
- Prescription/Pharmacy Licensure
- IV Therapy Certification and Chelation
- LDI and LDA Immunotherapy
- Bio-identical Hormone Prescribing
- Mold Illness Training
- Right Sleep
- Advanced Topics in Women's Health

Hormone Testing

Find out what is happening in your body! Comprehensive testing is extremely helpful to understand your best path forward. If you are not feeling amazing, there are likely clues in your lab work. Hormones, thyroid, inflammation, insulin, metabolic function, and blood sugar are tested at the local lab, for a reasonable cost. Recommended for everyone!

Low Dose Immunotherapy Allergy Therapy

Low dose immunotherapy (LDI/LDA) is Dr MacIver's single best tool to treat immune issues. LDI is effective for most thypes of immune overactivity including allergies, chemical sensitivity, and auto-immunity. The treatment involves administering very diluted (homeopathic) formulas, to induce tolerance to your allergen. Popular formulas include foods, pollens, chemicals and molds
